*allergenic substances Dir. 2003/15 / CE not used as such, but naturally present in the essential oils used in the formulation.

Characterizing and functional ingredients

Alcohol Denat: denatured alcohol is intended ethyl alcohol for use in fields other than food and pharmaceutical, treated by the addition of substances denaturing in order to make the taste unpleasant. In contact with bacteria and viruses, modifies and alters the chemical structure of their proteins and their enzymes, preventing them from performing functions. By destroying these substances, essential for the life of bacteria and viruses, actually prevents their development and theirs proliferation.

Citrus Limon Peel Oil: lemon essential oil, extracted for cold pressing of the outer portion of the peel, has astringent and toning properties. Natural source of d-Limonene, performs purifying action, antibacterial active against numerous pathogenic germs, natural antiseptic and disinfectant.

Thanks to the high ability to penetrate through the layers upper epidermis is widely used as functional ingredient in numerous topical products.

Use

Pour a minimum quantity of product directly onto the hands and rub together until they return dry. No need to rinse.

Warnings and indications

Keep out of reach of children. Avoid contact with eyes. In case of contact rinse with plenty of water.

Storage

The product remains stable for 24 months later the opening.
