

meccanocar Hand sanitizing gel 5 L

411 00 20900-6399-3 L – 411 00 20910-6400-5 L

Gel for the sanitization and disinfection of hands in the absence of water, formulated with 95 ° alcohol of the highest quality taste, and aromatic water obtained from the distillation of rosemary. The gel also contains rosemary essential oil.

In the cosmetic field, rosemary is widely used and appreciated in products for cleaning the skin, thanks to its antiseptic and deodorant action.

Cosmetic functions

Alcoholic hand gel, with >70% alcohol at 95°. The gel has an alcohol content of 60 °, this allows a sanitizing and antibacterial action.

Use

Apply a small amount of gel on clean hands, massage the entire surface of the hands until absorbed.

Ingredients INCI

Alcohol, Aqua, Glycerin, Hydroxypropyl Methyl Cellulose Ep E50, Rosmarinus Officinalis Extract, Rosmarinus Officinalis Oil, Limonene, Linalool.

Handling indications

Safe product under normal conditions of use. Cosmetic for external use. In case of accidental leakage and / or spillage, collect the product and dispose of it in the appropriate containers. Never return the spilled product to the original container for further use.

Storage indications

All parts in contact with the product must be kept clean in order to prevent secondary microbiological contamination (pollution) typical of a clumsy use of the package. The lid must always be tightly screwed in order to avoid contact with foreign bodies and avoid oxidation and / or pollution.

Store away from sources of light and heat.

Chemical/physical characteristics

- Appearance: low viscosity gel
- Color: transparent
- Odor: characteristic of alcohol and rosemary
