

meccanocar Lithium grease cartridge

411 00 03700-2622-600 g – 411 00 17410-4345-400 g

Description

Grease for general lubrications.

Good quality grease, based on lithium soaps, resistant to the washing away action of water, highly adhesive, smooth, shiny and streamlined.

For the lubrication of joints, joints, joints, various organs of agricultural and road machines, chassis of motor vehicles in general and tracks of tractors.

Physical and chemical characteristics

- | | |
|---|-------------------|
| ➤ Appearance: | porous stringy. |
| ➤ Drop point (ASTM D 566): | 180 ° C. |
| ➤ Soap nature: | lithium. |
| ➤ Color: | amber. |
| ➤ Additivation: | polymer-adhesive. |
| ➤ Water behavior: | good. |
| ➤ 3 balls RIV 5h. at 600 rpm loss of consistency: | |
| ➤ Nature of the fluid: | mineral. |
| ➤ Base oil viscosity: | ISO 100. |
| ➤ Operating temperature range: | -20 + 110 ° C. |
| ➤ Penetration (ASTM D 217): | 280. |
| ➤ Warehouse stability: | 24 months. |
