

meccanocar 477 00 08910-905-Air Fog nebulizer

The Air Fog nebulizer is a compact and handy electric dispenser for the application of concentrated or ready-to-use liquids in domestic, civil and industrial environments. Finely atomizes any type of product with particles from 20 to 60 microns in size for perfect distribution.

Ideal for application of sanitizers, disinfectants and more in any environment, outdoors and indoors or in vehicle interiors.

Structure in thermoplastic material resistant to impact and the corrosive action of chemical agents. Equipped with wide spraying and range adjustments. Container, nozzles, tank and pipes capable of resisting any type of liquid without corrosion.

Container tank with 5 liter capacity. Electric cable 5 meters long. Double electrical insulation for maximum safety of use. The instrument has a range of 5-7 m and is capable of cold saturating large cubes in a few minutes.

Technical features

- Power supply: 220 V - 50 Hz
- Power: 1000 W
- Absorption: 4.5 A
- Tank capacity: 5 L
- Dimensions: 29 x 43 x 26 cm
- Weight: 3.5 Kg
- Particle diameter: from 20 μ to 60 μ
- Delivery: max 30 liters / hour with liquids of density equal to 1

Precautions for use

Do not lie down or turn the Air Fog upside down. Do not use against the wind. Wash after use. Keep out of reach of children. Regarding the use of the products, follow the manufacturers' rules and indications.
