

Codice Meccanocar 3920000300

Nome del prodotto	Vehicle mover 590 kg, serie
Art	G5211-SERIE
Portata	590 kg
Machanismo	Double pawl bi- directional ratchet
Larghezza massima del pneumatico	280 mm
Rulli	Twin, rust resistant, plated steel
Rotelle	4x100 mm
Imballato	1 unit per box (right or left)
	1
	20

More Info

Gojak was designed to improve vehicle movement and repositioning in workshops, showrooms and body shops but is also invaluable in car parks and to a multitude of rescue services.

To overcome different axle widths, wheelbases, wheel sizes and tyre widths, every Gojak is self-loading. Gojak's are mechanical, therefore very quick and simple to use without the obvious hazard of leaking hydraulics.

This system makes lifting and moving vehicles in any direction very quick and easy saving both time and money.

With four models available an immense range of vehicles weighing up to **2.360 kg** can be 'lifted and shifted'.

Some characteristics of GOJAK car movers

- Makes it possible to move vehicles around showrooms, accidents, parking lots, without starting the engine even in the smallest space by only 1 person
- Equipped with Heavy Duty swivel wheels
- For safe and tidy storage of the GOJAK's is a trolley a must have!

The GOJAK is ideally suited for

- It super easy to maneuver in the showroom
- Moving sports cars and old-timers (engine does not have to be started)
- Moving cars in the spray booth
- Also ideal for total loss vehicles to move around in the workshop, even if the vehicle has a blocked steering wheel
